EDUCATION

Guru Nanak Matriculation Higher Secondary School <i>State Board – 12th Computer Science</i>	Chennai, TamilNadu <i>May 2024</i>
ST.JOSEPH'S INSTITUTE OF TECHNOLOGY <i>Pursuing III Year B.E – Computer Science and Engineering</i>	Chennai, TamilNadu <i>Aug 2024 – May 2028</i>

EXPERIENCE

Data Analyst Intern <i>Ashok Leyland</i>	Jun 2026 <i>Hybrid Internship</i>
- Independently developed a CAN Data Visualization Tool using Python. - Implemented CAN message decoding using DBC files and engineering signal conversion. - Built an interactive desktop GUI with Tkinter and Matplotlib for signal visualization. - Integrated support for multiple CAN log formats and automated data export using Pandas and cantools.	

PROJECTS

CAN Data Visualization Tool <i>Python, Tkinter, Pandas, Matplotlib, NumPy, cantools</i>	Jun 2026 – Jul 2026
- Independently developed a CAN Data Visualization Tool using Python for automotive CAN bus analysis. - Implemented DBC-based CAN message decoding and interactive signal visualization using Tkinter and Matplotlib. - Integrated support for multiple CAN log formats with automated data export using Pandas and cantools.	
Urban Sound Classification using CNN <i>Python, Librosa, CNN</i>	Mar 2026 – Apr 2026
- Built a deep learning model to classify urban sounds using MFCC features - Classified sounds such as siren, dog bark, drilling, and car horn - Improved model performance using Convolutional Neural Networks	
Object Detection System <i>Python, OpenCV, Deep Learning</i>	Jan 2026 – Feb 2026
- Built an object detection model to identify and localize objects in images - Implemented using deep learning techniques in Google Colab - Generated bounding boxes with class labels and confidence scores	
AI Chatbot using NLP <i>Python, NLTK, Transformers</i>	Jan 2026 – Feb 2026
- Developed an interactive chatbot capable of answering queries and maintaining context - Implemented NLP techniques for text processing and response generation - Deployed and tested the chatbot using Google Colab	

CERTIFICATIONS

Supervised Machine Learning: Regression and Classification <i>Stanford University & DeepLearning.AI (Coursera)</i>	2026
Machine Learning with Python <i>IBM (Coursera)</i>	2026
Deep Learning with TensorFlow <i>IBM (CognitiveClass)</i>	2025
Deep Learning Fundamentals <i>IBM (CognitiveClass)</i>	2025
Python for Data Science <i>Infosys Springboard</i>	2025

TECHNICAL SKILLS

Languages: Java, Python, C, SQL
Databases: MySQL
Developer Tools: GitHub, Google Colab, VS Code, PyCharm
